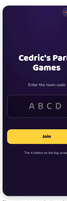
chameleon — every screen

Flow order, top to bottom. Phones are 390×844 (shown smaller), laptop is 1280×720. Generated by the real code, not mockups.

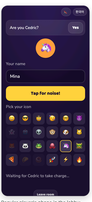
Who's who: **Laptop** = the shared screen (display only, no buttons). **Admin phone** = the phone that entered the PIN (picks the game, starts, runs everything). **Regular phone** = everyone else.

1 - Joining

Laptop: opens by itself, shows the room code + QR. No buttons.



Phone: someone who typed the address (no QR) enters the 4-letter code

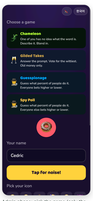


Regular player's phone in the lobby: name, icon, 'Tap for noise', 'Are you Cedric?'

Laptop lobby as friends join (they pop in)

2 - Becoming the admin

Tap 'Yes' on 'Are you Cedric?' → our own PIN dialog (no browser pop-up)



Admin phone: pick the game (only the admin sees this)

Laptop switches to the chosen game's look; admin gets an ADMIN badge

Admin lobby after choosing: Start button + Close room

3 - Setup (before the word)

ADMIN phone: voting on/off, number of chameleons, categories, Deal

Regular player's phone: sees the settings, can't change them

Laptop during setup

4 - Playing (people talk out loud)

Laptop: the shared word grid. Never shows the secret.

Regular phone (knows the word) — before holding the secret card: looks identical for everyone

Regular phone while HOLDING: the secret word, lit up in the grid

Admin phone while HOLDING: "You are the CHAMELEON" (card looks the same as the others')

Admin taps 'Pick who goes first' → everyone sees it

Admin phone while playing: first: speaker picker + Start voting / Reveal

5 - Voting (optional)

Everyone taps who they think the chameleon is

Laptop while people vote

6 - Caught → last guess

Caught chameleon's phone: tap the word you think it was

Everyone else waits

Laptop while the caught chameleon guesses

7 - Result

Laptop: stamp, the word, the guess, the vote tally

Admin phone: result + Next word / Change options / Back to lobby

Regular phone: result

8 - Closing the room

Admin taps 'Close room' → themed confirm dialog

9 - Korean (one tap on the language button, any time)

Admin phone in Korean
